STORY

Step into the World of the Samurai

You are a traveler who has wandered into the castle town of Nagahama during Japan's Sengoku Era.

After a sudden ninja ambush, you begin your training as a samurai. Learn archery and swordsmanship, explore the castle town, and discover the culture and traditions of historic Nagahama.

Once your training is complete, join fellow warriors in a battlefield challenge to capture enemy territory and prove your skills.

Then gather at the KOHOKU BANQUET, raise a toast with your comrades, and celebrate an unforgettable Sengoku adventure.

Are you ready to enter the world of the samurai?
